

Fernando Miguel Nishio Lucar

Environmental Scientist — Wildlife Field Biologist — Project Manager

Lima, Peru · +51 999 156 493 · FNishio@gmail.com

Professional Profile

Environmental scientist and wildlife field biologist with more than 15 years of experience leading ecological research, wildlife conservation initiatives, environmental monitoring, and multidisciplinary scientific operations across Peru.

Specialized in protected area management, marine wildlife conservation, field logistics, environmental quality assessment, and project coordination in remote and high-complexity environments.

Proven ability to manage large research teams, coordinate international collaborations, optimize operational systems, and support long-term conservation programs involving marine mammals, seabirds, Amazonian fauna, and sustainability initiatives.

Core Skills

Wildlife Research & Conservation
Marine Conservation Programs
Protected Areas Management
Environmental Data Analysis
Scientific Coordination
Research Logistics
Stakeholder Engagement
Environmental Compliance

Project Management
Environmental Monitoring
GIS & QGIS Mapping
Water Quality Management
Team Leadership
Technical Documentation
Biodiversity Monitoring
Sustainability Projects

Selected Achievements

- Led multidisciplinary research and conservation teams involving more than 80 volunteers and researchers.
- Coordinated wildlife conservation and field operations in protected marine ecosystems across Peru.
- Supported the construction and development of a scientific research station for long-term ecological monitoring.
- Developed strategic collaborations with NGOs, universities, zoological institutions, and international conservation organizations.
- Optimized logistics, procurement systems, and operational workflows for remote scientific operations.

Professional Experience

Project Manager — Museo Interactivo S.A.C.

2024

- Directed administrative operations, logistics coordination, and creative scientific projects.
- Developed educational content focused on geology, environmental sciences, and human anatomy.
- Coordinated interdisciplinary teams for scientific outreach initiatives.

Researcher — Aynimundo

2023

- Secured funding for a pilot greywater treatment system project.

- Designed and implemented an urban organic irrigation system focused on sustainability.
- Achieved the production of more than 120 kg of food within six months using a compact cultivation system.

Director — Center for Environmental Sustainability (UPCH) 2019–2022

- Led scientific coordination and operational management for environmental conservation programs.
- Supervised multidisciplinary teams involving more than 80 researchers and volunteers.
- Coordinated fundraising initiatives and institutional partnerships.
- Supported the construction of a scientific research station.

Operations Manager — Punta San Juan Program (UPCH) 2018–2021

- Directed field logistics and operational coordination across Lima, Nazca, and protected coastal areas.
- Optimized operational budgets, procurement systems, and equipment acquisition.
- Provided logistical and technical support for wildlife and marine conservation research teams.

Wildlife Research Experience

- Reproductive success monitoring of South American fur seals (2012–2021)
- Health assessment of South American sea lions (2012–2020)
- *Rattus rattus* control programs for seabird protection (2015–2020)
- GPS capture and tagging of Amazon river dolphins (2018)
- Population health assessment of Peruvian pelicans (2007)
- Humboldt penguin population monitoring (2005–2007)
- White-lipped peccary assessment in Manu Reserve (2006)
- Herpetological inventory in Manu Reserve (2006)

Projects

- Construction of Punta San Juan Research Station (2022)
- Community outreach collaboration project with Kansas City Zoo (2019)
- Organization of R Programming Course for Biologging Applications (2020)
- Sustainability and greywater treatment initiatives

Education

Bachelor's Degree in Biology (Environmental Microbiology)
 Universidad Peruana Cayetano Heredia (UPCH)

Certifications & Additional Training

- Water Quality Management Technician — Shizuoka Prefecture, Japan
- Wastewater Treatment Programs — PUCP-INTEC
- Environmental Impact Assessment — PUCP-INTEC

- Google Project Management Certification (In Progress)
- Solid Waste Management — World Bank
- Global Environmental Management — University of Copenhagen
- Artificial Intelligence for Professional Development — University of Maryland
- R Programming for Statistical Analysis — UNAM

Technical Skills

QGIS · GIS Applications · Power BI · R Programming · MS Office Suite · Scientific Reporting · Environmental Data Analysis

Languages

- Spanish — Native Proficiency
- English — Professional Working Proficiency
- Japanese — Basic Proficiency
